

## **ROCKY MOUNTAIN FRONT CONSERVATION PACKAGE PRESENTATIONS**

Hunters and anglers, now is your chance to consider the proposed Conservation Package for the Rocky Mountain Front! A series of presentations will be given around Montana in late September and early October. Your input and support is critical in making sure that the Rocky Mountain Front stays just the way it is! Help us maintain our current level of access, our world class wildlife resources, and our century old conservation heritage along the Front.

The Coalition to Protect the Rocky Mountain Front, of which MWF is a member, have spent the last 18 months seeking input from local landowners, hunters, conservationists, business owners as well as people who go to the Front to camp, hunt and fish in order to craft a plan that protects not only the world class wildlife habitat, but also preserves all types of access to the Front. This new and exciting model of land management planning has never been tried before, so come to the public meetings, learn more about the Conservation Package, and help us keep the Front the way it is today, for future generations.

### **Public Meeting Schedule:**

#### **Great Falls**

Wednesday, September 30 - 7:00PM  
Heritage Hall/MSU Campus
